

**Dr. Geoff Barrall**  
Trusted Data

Founder and Chief Executive Officer

Geoff Barrall is a founder of Trusted Data Corporation and the designer of its core technology. Prior to joining Trusted Data, Dr. Barrall founded five companies, the most recent being BlueArc Corporation, the number three supplier of Enterprise NAS in the US. Geoff was voted a Byte and Switch Top Ten storage industry star, speaks frequently at major technology events and is published in leading industry publications. Geoff is an executive consultant to the senior team at Brocade Communications, sits on the board of directors for Tacit Networks, and the board of advisors for Data Domain and NeoPath.

Dr. Barrall earned his PhD in Cybernetics from the University of Reading, UK.
