

STORAGE VISIONS™ 2008 CONFERENCE

AN ENTERTAINMENT STORAGE ALLIANCE™ EVENT

Don Verner, Senior Applications Engineer for Solid State Drives, NAND Group, Intel Corporation

BIOGRAPHY

Don Verner is currently a Senior Applications Engineer for Solid State Drives in Intel's NAND Products Group. Don started in the Flash Memory Group in 1988 and pioneered the use of flash memory for BIOS storage in Mobile, Desktop and Server platforms, and defined and developed a specialized Boot Block flash memory part for those markets. Don also worked on flash memory applications in Digital Audio and Digital Photography and spent six months in Japan developing those applications for Intel Flash Memory. Don also worked in Intel's field sales organization as an Embedded Intel Architecture Specialist, Desktop Technical Sales Manager and Storage Applications Specialist before returning to the NAND Products Group as an SSD Applications Engineer. Don is married with three children and is actively involved in his church and Boy Scouts.

Talk to be given at the Storage Visions™ 2008 Conference
at the Flamingo Hotel in Las Vegas, Nevada, January 5th and 6th 2008!
