Bryan Ekus, Managing Director, Media-Tech

BIOGRAPHY

Bryan Ekus is a founding member, former Chairman and currently the Managing Director of the MEDIA-TECH Association.

The MEDIA-TECH Association is an international association that was created in 2001 to serve every facet of the optical and removable storage media manufacturing industry, spanning the range from all current formats of optical discs and magnetic media to future formats such as Blu-ray Disc, HD DVD, or HVD. The MEDIA-TECH Association serves the optical storage media manufacturing industry with a unique program of trade shows and conferences where the exchange of ideas can take place, along with the demonstration of the latest in technology - from services to equipment.

Bryan has close to 25 years experience in the media manufacturing, data storage, and video entertainment sectors.
