

Tracey Doyle, Director, Cloud program management, HDS

TITLE

The Cloud; is it the way to deal with your infrastructure challenges?

ABSTRACT

This presentation will Identify Opportunities and Challenges for Consumer and Enterprise Cloud Storage environments. We will discuss ways to use infrastructure Cloud to let you create a Data Center Transformation for the real world. Change the way you think about managing your infrastructure Technology and provide your infrastructure Services

BIOGRAPHY

Tracey Doyle has a BS in Business Management from the University of Phoenix. Tracey works for HDS in their innovative Cloud space. Prior to joining HDS in July 2010, she was with EMC for eleven years. During this time she has successfully worked to create and manage numerous EMC's results oriented OEM partnerships. Tracey has more than 15 years of management experience including 8 years managing multimillion dollar high-tech projects and cross functional teams.

Over the last year, working on Cloud and Virtualization has been her primary role. Tracey's recent move to Hitachi Data Systems has enabled her to bring her, program management, technical experience and passion for cloud technology to fruition.

A four time speaker at Storage Visions, speaking roles at SNW, VMWorld and Gartner conferences, a social media advocate and leading over 50 customer feedback sessions @ industry conferences such as EMC World and Brocade technical conferences allow her to stay involved with her other IT interests i.e. promoting Green Data Centers and Fibre channel and IP networking.
