Jenni Dietz, Industry Enabling Manager, Data Center Marketing Group, Intel Corporation

BIOGRAPHY

Jenni Dietz is an Industry Enabling Marketing Manager in Intel's Data Center Marketing Group. Jenni is responsible for enabling the storage industry with the move to PCIe attached storage and new technologies that support Solid State Storage. Jenni helped drive the first SSD Form Factor Working Group which included the SFF-8639 specification.

Prior to joining the Data Center Marketing group, Jenni had previously been in an operations management role in the Data Center Strategic Planning Group.

Jenni has 14 years of experience in the computer industry. She holds a B.S in Business Management and Leadership from Portland State University, Portland, Oregon.
