Scott Jeschonek, Director of Product Management, Avere Systems

BIOGRAPHY

Scott Jeschonek is the Director of Product Management at Avere Systems, a leading provider of enterprise storage for the hybrid cloud. Scott has spent the past 20 years synthesizing his enterprise, telecommunications and vendor experience together to provide a unique perspective on the implications of the cloud phenomenon. Scott has participated in a number of public speaking engagements as well as years of delivering technical training, including presentations at ComNet and various product management seminars.
