

Brian Campanotti, Global Director of Business Development, Oracle Digital Media Solutions

BIOGRAPHY

For the past decade, Brian Campanotti has lead innovation and strategy for Front Porch Digital as CTO, leading to their acquisition by Oracle in 2014. He now heads a global business development team at Oracle focused on advanced Digital Media Solutions in Content Storage Management, archiving and long-term preservation serving many verticals. He has worked in the industry for more than two decades and was one of the primary inventors of the Archive eXchange Format (AXF) open-standard, instrumental in the long-term storage and preservation of file-based assets. He and his team have won two Emmy® Awards for their work in content preservation and for innovation in serial digital video. Mr. Campanotti founded several tech start-ups and began his career at the Canadian Broadcasting Corporation. He holds a degree in Electrical Engineering from the University of Toronto.
