

Brian Zahnstecher, Principal, PowerRox

BIOGRAPHY

Brian Zahnstecher is the Principal of PowerRox, where he focuses on power design, integration, system applications, and OEM market penetration for power electronics. He has successfully handled assignments in system design/architecting, AC/DC front-end power, embedded solutions, processor power, and digital power solutions for a variety of clients. He offers complete, end-to-end power services covering design support, troubleshooting/debug, quality, reliability, manufacturing, technical sales/marketing support, market definition, worldwide logistics, and customer meeting facilitation. He previously held positions in power electronics with industry leaders Emerson Network Power, Cisco, and Hewlett-Packard, where he advised on best practices, oversaw product development, managed international teams, created/enhanced optimal workflows and test procedures, and designed and optimized voltage regulators. He has over 12 years of industry experience. He holds Master of Engineering and Bachelor of Science degrees from Worcester Polytechnic Institute.
